Bai' al inah (literally, "a loan in the form of a sale"), is a financing arrangement where the financier buys some asset from the customer on spot basis, with the price paid by the financier constituting the "loan".

Subsequently, the asset is sold back to the customer who pays in installments over time, essentially "paying back the loan". Since loaning of cash for profit is forbidden in ...

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

The goal of these 2 components is to construct a global equity portfolio with high expected returns (over the long-haul). We think our value and momentum strategies are differentiated from the rest of the pack for the following key reasons: Focused exposure, heavy R&D efforts, and our unique approach.

The Global Value Momentum Trend Philosophy

The real effects of capital controls: Firm-level evidence from a policy experiment

The real effects of capital controls: Firm-level evidence

Notable updates made on Dec. 13, 2017: - Maximum position concentration lowered from 10% to 5%. After community feedback and internal discussion, we feel that 5% is more appropriate (and still not too restrictive) as an upper limit for this contest.

A New Contest is Coming: More Winners and a New Scoring System

Harness the benefits of private and public clouds. With cloud, it's never been easier or faster to deploy applications. Without cross-cloud visibility to manage hybrid cloud resources and applications, the result may be unpredictable spending and inefficiency that thwarts productivity and agility.

While many empirical studies document borrower benefits of lending relationships, less is known about lender benefits. A relationship lender's informational advantage over a non-relationship lender may generate a higher probability of selling information-sensitive products to its borrowers.

So what do I get? The bank's view of lending relationships
