The multiverse is a hypothetical group of multiple universes including the universe in which we live. Together, these universes comprise everything that exists: the entirety of space, time, matter, energy, the physical laws and the constants that describe them. The different universes within the multiverse are called "parallel universes", "other universes", or "alternative universes".

Bahá'í'u'lláh, founder of the Bahá'í Faith, taught that God created humans due to his love for them, and thus humans should in turn love God. `Abdu'l-Bahá, Bahá'í'u'lláh's son, wrote that love is the greatest power in the world of existence and the true source of eternal happiness. The Bahá'í teachings state that all genuine love is divine, and that love proceeds from God and from humans.
