Chapter 1: Python, IDLE and your first program 8 In this chapter you are going to: learn about computer programming and the different languages that you can use

Chapter 1

Python is an interpreted high-level programming language for general-purpose programming. Created by Guido van Rossum and first released in 1991, Python has a design philosophy that emphasizes code readability, notably using significant whitespace. It provides constructs that enable clear programming on both small and large scales. In July 2018, Van Rossum stepped down as the leader in the ...

Python (programming language) - Wikipedia

Making Music with ABC 2 I have written a manual that explains how to write music using ABC 2. It focuses on using abcm2ps, abc2svg, abcmidi, and the ABC/MusicXML translators, but most of the information it contains can be applied (at least to some extent) to all ABC applications. Many thanks to Norman Schmidt who helped me translate parts of the manual.

The ABC Plus project

What is Python? Python is an interpreted, interactive, object-oriented programming language. It incorporates modules, exceptions, dynamic typing, very high level dynamic data types, and classes.
