In informal logic and philosophy, an argument map or argument diagram is a visual representation of the structure of an argument. An argument map typically includes the key components of the argument, traditionally called the conclusion and the premises, also called contention and reasons. Argument maps can also show co-premises, objections, counterarguments, rebuttals, and lemmas.

The evolutionary emergence of language in the human species has been a subject of speculation for several centuries. The topic is difficult to study because of the lack of direct evidence. Consequently, scholars wishing to study the origins of language must draw inferences from other kinds of evidence such as the fossil record, archaeological evidence, contemporary language diversity, studies ...

In Caesar's Messiah, Joseph Atwill showed that the Flavian Caesars, Vespasian and Titus, invented Christianity, more or less in the form we know it today. Remarkably, the emperors left behind a veiled confession (or boast) of their work, embedded in the Gospels and the works of Josephus. The religion was invented as wartime propaganda, primarily targeted at Hellenistic Jews of the Diaspora ...
