Sales of Feeder Cattle are reported at local auctions. Information is collected and reports are listed by state. Alabama; Arkansas; Colorado; Florida

Feeder and Replacement Cattle Auctions | Agricultural

A cash crop or profit crop is an agricultural crop which is grown to sell for profit. It is typically purchased by parties separate from a farm. The term is used to differentiate marketed crops from subsistence crops, which are those fed to the producer's own livestock or grown as food for the producer's family. In earlier times cash crops were usually only a small (but vital) part of a farm's ...

Cash crop - Wikipedia

Pollination may occur between vegetable cultivars, creating new cultivar varieties. For example, plants in the Cucurbitaceae or gourd family belong to four species among which crosses may occur. The success of such crossing depends on the species to which a variety belongs.

Pollination of Vegetable Crops | UGA Cooperative Extension

The greenhouse hydroponic vegetable industry in Florida has changed significantly over the past 15 years (Tyson et al. 2004; Tyson et al. 2001) due to shifts in market demand, adverse weather, and research-based innovations in new crops, as well as improvements in production cost and efficiency ...

Controlling weeds is never easy. Getting the upper hand on weeds usually takes a lot of elbow grease and a good plan. Serious organic growers and people who simply don't want to use herbicides around their families and homes need to be especially resourceful as they come up with strategies to tackle weeds.
