Reason is the capacity for consciously making sense of things, establishing and verifying facts, applying logic, and changing or justifying practices, institutions, and beliefs based on new or existing information. It is closely associated with such characteristically human activities as philosophy, science, language, mathematics, and art and is normally considered to be a distinguishing ...

A Treatise of Human Nature (1738â€“40) is a book by Scottish philosopher David Hume, considered by many

to be Hume's most important work and one of the most influential works in the history of philosophy. The Treatise is a classic statement of philosophical empiricism, skepticism, and naturalism. In the introduction Hume presents the idea of placing all science and philosophy on a novel ...

Dramatic literature, the texts of plays that can be read, as distinct from being seen and heard in performance.. The term dramatic literature implies a contradiction in that literature originally meant something written and drama meant something performed. Most of the problems, and much of the interest, in the study of dramatic literature stem from this contradiction.

Preface: The issue of the Catholicism and the canon of Scripture is an issue of authority and determination of Truth, and thus this preface is provided. It is also often asserted by Roman Catholics that they gave the world the Bible and thus they are the infallible interpreters of it, but even if it could be said that the Catholic church of Trent was the same as that of the first century (which ...
