Water privatization is used here as a shorthand for private sector participation in the provision of water services and sanitation. Private sector participation in water supply and sanitation is controversial. Proponents of private sector participation argue that it has led to improvements in the efficiency and service quality of utilities.

Water privatization - Wikipedia

Purchase and sale agreements can generally be divided into those used in public transactions (i.e. where the target, and possibly the acquirer, is a public entity) and those used in private transactions (i.e. the sale of a private company, a subsidiary, or selected assets of a public entity).

Private vs. Public Deals - Macabacus

In economics, a public good is a good that is both non-excludable and non-rivalrous in that individuals cannot be effectively excluded from use and where use by one individual does not reduce availability to others. This is in contrast to a common good which is non-excludable but is rivalrous to a certain degree.. Public goods include knowledge, official statistics, national security, common ...
